Full Stack Developer with experience in web application development. I have worked on various projects using a wide range of technologies, including JavaScript, React, TypeScript, Node.js, Angular, Express, SQL, and NoSQL. I have experience in version control using Git, GitHub, Gitlab, Jira, Teams, Trello, and implementing Kanban and Scrum in development teams to optimize delivery and improve communication. I am currently pursuing a degree in Systems Analysis, where I am deepening my knowledge of Java and its application in software development. I hold an advanced B2 level of English.

SKILLS

JavaScript, HTML5, CSS, SCSS, Java, Angular, Angular Material, Sql, React, Astro, Git, Firebase, Firestore, NodeJs, GitHub, Gitlab, Git, Express, Bootstrap, PostgreSQL, WordPress, Trello, Jira, Photoshop.

WORK EXPERIENCE

Front-end Developer Sep-2024 — Present
Innevo *Santiago de Chile, Chile*

I worked on a web application built with Angular, focusing on creating a dynamic and responsive user interface. My role involved developing modular components, integrating Angular Material for a cohesive design, and implementing advanced TypeScript practices. The application interacts with various REST APIs, enabling efficient data handling and ensuring a seamless user experience.

- Angular Component Development: Built reusable and optimized Angular components, following best practices.
- Angular Material Integration: Implemented Angular Material to enhance user experience and visual consistency.
- Reactive Forms: Developed dynamic and custom-validated forms using Angular Reactive Forms.
- State Management and Services: Configured Angular services to handle business logic and share data between components.
- REST API Integration: Integrated external APIs using Angular's HTTPClient for CRUD operations and data display.

PROJECTS/INTERNSHIPS

Front-end Developer, Informental (informental.com.ar) Nov 2023 — Dic 2023

- Collaborated in transitioning the application from PHP to React.
- Developed the web version of the application, working on the design of various tabs, data forms, and charts.
- Worked with the Informental team to improve user experience by optimizing performance and integrating React and Node.js technologies.
- Achieved a 15% reduction in loading times by optimizing code using React Server Components.

EDUCATION

Da Vinci's University Buenos Aires, Argentina
System Analysis *Aug 2024 — Dic 2027*

Henry Bootcamp Buenos Aires, Argentina
FullStack Developer (PERN) *Jan 2022 — July 2023*

Udemy, Coderhouse Buenos Aires, Argentina
Advanced Course in React, JavaScript, CSS, HTML *Jul 2023 — Nov 2023*
